

Erasmus+

Inclusion in Secondary School (Germany, France, Romania, Greece)

Thursday, 25th October 2018

- In the morning from 9.30 to 13.00 the Erasmus team discussed about the mobility which will take place in Romania from the 12th of May until the 18th.
- We discussed on the program of the mobility.
- On Monday the 13th of May we will have the arrival at the school from 9.00 am to 9.30. We will have our meeting at the aula where we will present ourselves, both the students and the teachers. There will also be warming-up activities and a welcome from the Principal of the School.
- 10.30-11.30 : We will have a guided tour of the school by the Romanian students.
- 11.30-12: Coffee break.
- 12.00-13.30: Presentation of the program to the students.
- 14.00-15.00: Lunch in a school nearby.
- 15.00-17.00: There will be a meeting explaining to the students what they should take into account each day. They will also receive the materials for the whole week.
- During the afternoon the theatre group of the school will be invited to give a performance for the students. However, it has to be checked whether this is possible.
- Dinner: Probably at the mall.

On Tuesday (Orientation in Space and Time)

- 9.00-9.30: Students and teachers will go to the hill. There, they will talk about the surroundings of the town.
- Students will calculate the distance.
- They will discuss about the temperature: Celsius-Fahrenheit.
- Each country has to prepare the students as far as the place they live, the meteorological phenomena and the climate.
- 13.30: Lunch in a pension nearby.
- Afternoon: Adventure Park (arrangements are to be made).

On Wednesday (What do I eat?)

- 9.30-11.00: Go to the supermarket and to the city market.

- There the students will be asked to concentrate on certain types of food (cheese, salami, yogurt, biscuits, soda, ice cream, sweets).
- They will focus on the ingredients.
- They will select which is the healthiest and which is the less healthy.
- 11.00-11.30: Coffee break.
- 11.30-13.30: Funny experiments in the Chemistry lab.
- 13.30-14.30: Lunch.
- 15.00-16.00: Use of the web2 tool Popplet in connection to their findings.
- 16:00-17:00: guided tour to the city centre

Thursday

- In the morning: planetarium short presentation of the planets of the solar system in English.
- Students will work in teams and they will be involved in a series of calculations, concerning the distances of the planets from the Sun or the Earth.
- Visit of the University's library.
- Lunch at the University Canteen.
- Afternoon: Visit to the botanical garden: Students will play games concerning common spices of each country.
- At the end they will work on a famous poem of the Romanian Poet Eminescu, on which they will have worked at home.

Friday

- 9.00-11.00: Students will work on the story jumpers.
- 11.00-11.30: Coffee break
- 11.30-13.00: The students will present their story jumpers in front of students in the aula. The story jumpers will be the final product of the meeting. It will be an e-book created by the students which will include pictures, impressions and emotions from their visit. The e-book will be connected to the subject under investigation which is dyscalculia.
- Final Party.
- Free time: Palace area: mall, attractions.

In addition, towards the end of the meeting the team discussed the ages of the students involved to the mobilities and it was agreed that the group of students will be from 14 to 17 years old.

As far as the activities for Romania are concerned the team decided that each country will be responsible for a set of activities, i.e. Germany for astronomy, Greece for the supermarket, Romania for Geography and France for the botanical garden.

Romania will look for potential existing translations of Eminescu's poem and will contact the rest of the team.

The Romanian colleagues also informed us that we will need to change money for our Romanian trip in May.
