

Report of March, Mickūnų kindergarten, Lithuania

1. Welcome Spring

Children love to paint spring.

2. Carnival time, children will make masks with useless material

This year the carnival “Užgavenės” in our preschool was on 25th of February, and we celebrated it, but still about this activity we write in March. We celebrate this event each year, teachers create a theatrical play, we bake pancakes and create colourful masks, because we want to scare the Winter.

3. Management activities

From 16th of March our preschool was closed because of the COVID-19 situation in our country, so our children were at home, and they started the home education.

At the end of March we sent the monthly report of March to our project coordinator. We have done almost all project activities for March, except one.

We answered to the questionnaire about March partial evaluation of project implementation.

We received on time the list of April activities from our coordinator
