

## CULTURAL WEEKS IN OUR KINDERGARTEN

### INFORMATION FROM VILNIAUS R. MICKŪNŲ VAIKŲ LOPŠELIS-DARŽELIS, LITHUANIA

Created on behalf the Erasmus+ project „My culture, your culture, our culture“

Erasmus + „My culture, your culture, our culture“ we started from september 2018, this project collaborate 5 different Europe schools, from 5 different countries: Poland, Lithuania, Italy, Portugal and Greece. All the activities of this project were strictly combined to know more about the culture, tradition and history of all this 5 countries. We use the information of other countries, that we can find on Twinspace board, and also that we saw durin our learning/teaching activities in this countries, we shared with our community, and most of all with our children, we created to them cultural events, during this events we baked and tasted the traditional meals of other countries, we saw the presentations of other preschools, and their activities, and also we learned the main words, listened to the songs, and watched the traditional dances, so during this few years of this project, we learned more about all this countries.

#### POLAND

Polish culture and tradition are very close to us, because we represent polish minority in Lithuania, and we speak polish, we sing polish, and we know a lot about the polish tradition, culture and history. Each year on November we celebrate the Polish Independence Day, and we create with teachers short projects with different acitivities for our children.

## POLAND

## ITALY

Italy associated for us most of all with pizza. So we baked with children pizzas, degustated it, and also observed the presentation about Italy, that was created of our teacher Irena Makovska, after the learning/teaching activity in Italy.

## PORTUGAL

Portugal for us and for our children was really very far away, we don't know about this country nothing, and also not a lot of our parents traveled to this country. Thanks to this project we created for our children the activity about this country, they created the Portugal flag, and also they learned how to say „Hello“ in portugese, also we watched the movie and picture presentation about this beautiful country. Also we had an opportunity to be connected with children from Portugal, and to sing to them via skype, and they sang to us.

## GREECE

Greece is the main our country, because is coordinator country. We learned about this country as the first, children created the paintings of Greece flags, they learned about the main flag colors, and also during the dance classes they learned how to dance sirtaki, the traditional Greek dance, this dance was presented to all our partners during the

**learning/teaching mobility in our preschool. More about this country we know from the greek salad, and this meal is easy to prepare even for the children, so we prepared it and tasted it, it was delicious.**

## **LITHUANIA**

**About this country our children knows a lot, we celebrate all the National events, we learn lithuanian song and dances, and also we presented traditional costumes of Lithuania.**
