

McKinney Primary School Dundrod

Survey - 1st year evaluation - Pupils' Survey

Issued by Andy Nye on 12/04/2019

My participation in the project so far has been exciting

It was very exciting because I got to learn more about their countries.

I liked my participation because I liked taking around Greece around the classes

I loved going on twinspace and meeting people on it.

It was very exciting because I got to learn more about their countries.

I strongly agree because it was very exciting and fun

very

seeing the schools on the internet and learning there different languages

It was very exciting learning about different countries and meeting new people.

I loved the visitors!

I loved twin space because u got to know people from different schools.

I like the project because we get to communicate with people in other countries.

I love going on twinspace to meet other pupils and teachers from different countries.

It was a very exciting experience and I enjoyed going on twin space and talking to new people online.

it was really interesting learning about the other countries

I loved when all of the Erasmus people came to our school.

I like it when the other county came in to the class room

I really liked the project

I only really liked it when they came over to our school

It has a been a fun experience so far.

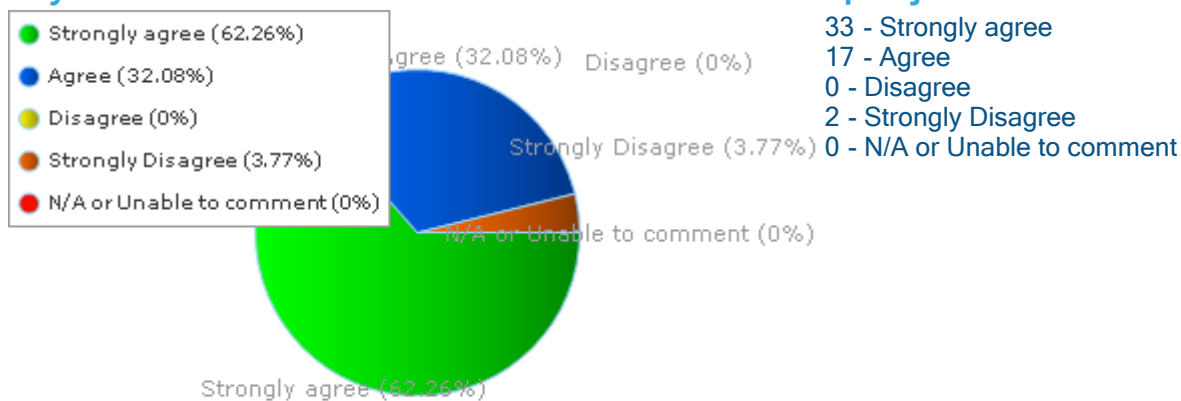

This project has been very fun so far my favourite part so far was when the people from the different countries.

I really liked it when the other countries came to our school

can be quite much sometimes

My teachers are enthusiastic about the project

Mr Nye and Mrs Daniels loved to learn about the different countries

Mr Nye was mad about it

I feel like all my teachers are enthusiastic about the project.

Our teacher was very enthusiastic about the project he even taught us some Lithuanian.

My teacher is really enthusiastic about the project

my teacher is really enthusiastic because our main country was Lithuania and it was cool to learn about there cities and languages

all of them are really enjoying it

very

very

I strongly agree because all my teachers were very enthusiastic about the project

mentions it every week

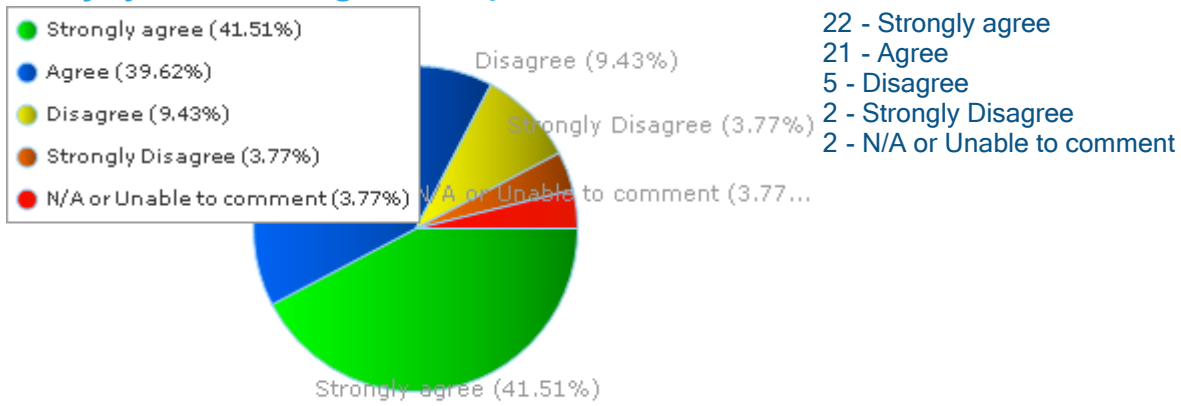

My teacher is enthusiastic about the project but not all the time.

my teachers were especially Mr Nye

My teacher is enthusiastic about the project but not all the time.

I think they are enthusiastic but we did not do it every single day but most days we did

I enjoyed the logo competition

I loved making the logo

it was really fun

I loved doing the logo competition as I love to draw.

I loved it because I like art and drawing

It was probably one of my favourite parts and was fun to design a logo.

I loved it because it was fun to do

I loved it because it was fun having to do drawing instead of maths and english

a lot

I love art so it was so fun

I loved doing the logo competition as I love to draw.

I liked the logo competition because it was arty

I enjoyed it because I love doing art.

It was fun but not the best

I liked the logos competition because I found it fun to draw and create a logo.

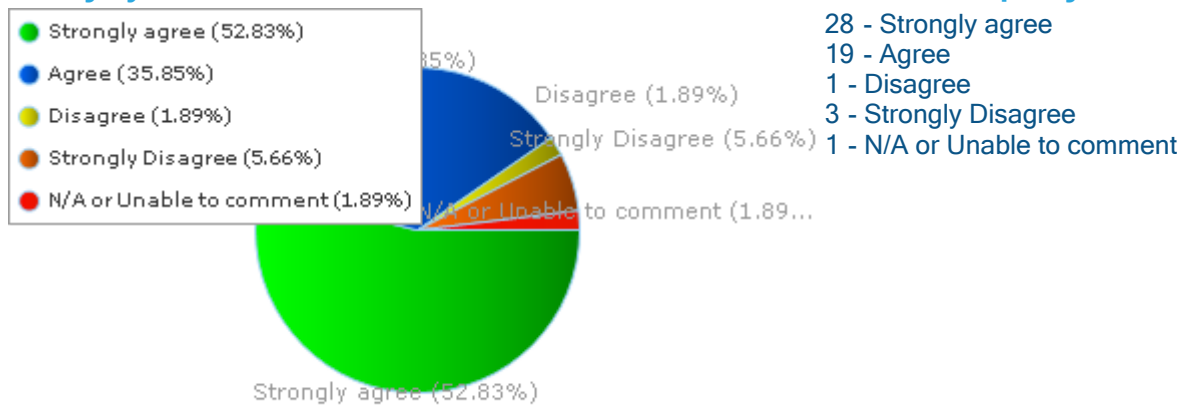

I enjoyed it because I like drawing and colouring in

I'm not good at drawing although I enjoyed drawing

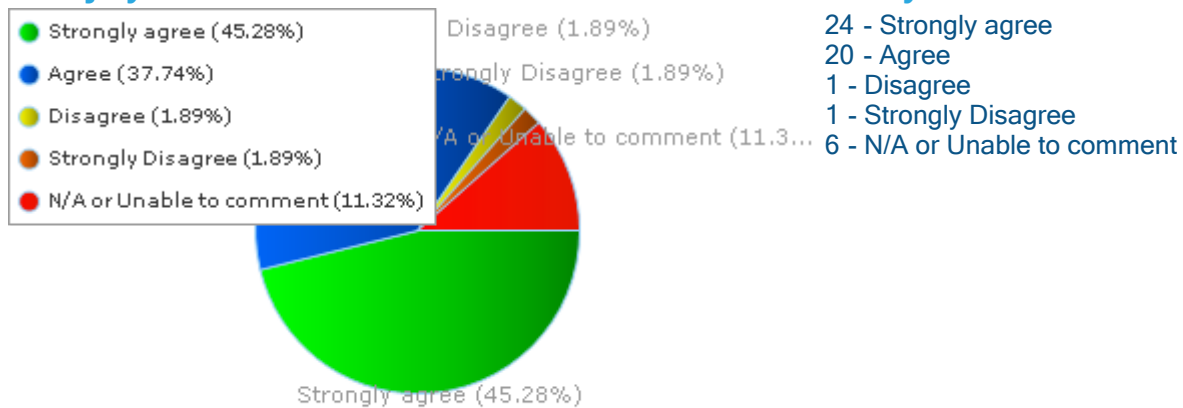

I don't like drawing

I don't really like art

I enjoy the art activities that are linked with the project

I enjoyed the activities related to the charity event

Raffle coffee morning

I really liked the raffle

I loved the charity event because we got to walk home in bare feet

basketball player

it was really cool because we got to give our shoes to other children

basketball player

it was cool that we got to give to other children

Raffle and the basketball player.

tea party

a lot

basketball player

it was fun even though we didn't do much basketball

The activities related to the charity event were fun but not the best

I enjoyed the charity event because people in other countries that are poor get stuff

I liked doing activities related to the charity.

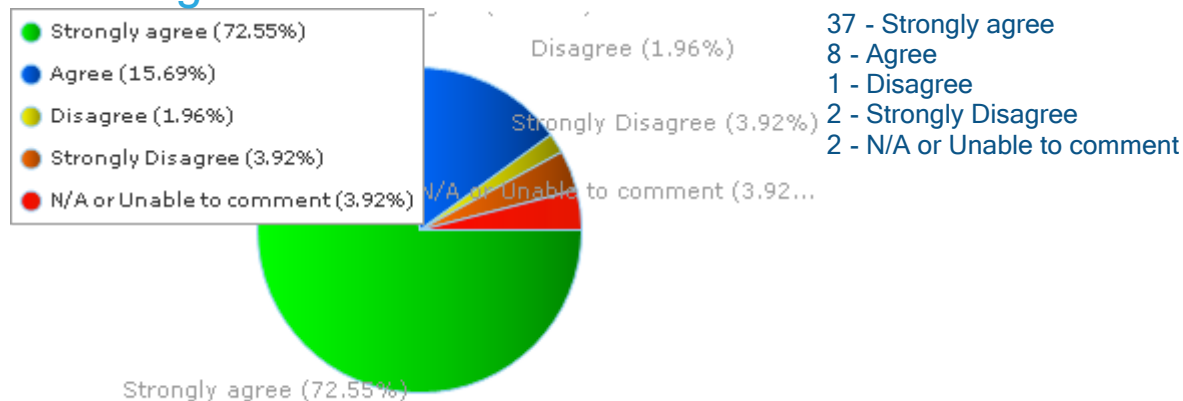

I liked doing activities related to the charity.

I enjoyed doing all the activities.

I had no comment because I didn't do it

I feel like this was a good advent but I sadly didn't take part so I don't really have a proper opinion.

I enjoy collaborating with the other schools - sending and receiving cards

it was really cool because you got cards from lots of people

I like sending and receiving cards because your get to talk to people not in person

I loved getting emails and letters from other schools as it was exiting to see what they say.

emails, cards

I really enjoyed doing this part it was fun to talk to people from other countries.

It was interesting to see how and what the countries spell

origami

emails, cards

I love interacting with the other schools because I have made a new friend from england

receiving and sending emails

Origami and sending cards

I really enjoyed collaborating with the other schools and making cards sending them and receiving cards

Cards, emails

It was exiting knowing that kids were sending cards to us

this activity was very fun because we got to make cards and send them to the other countries.

I love sending e mails

I really liked getting stuff and giving stuff to other schools

very much

it was nice

I loved to get cards form the other schools

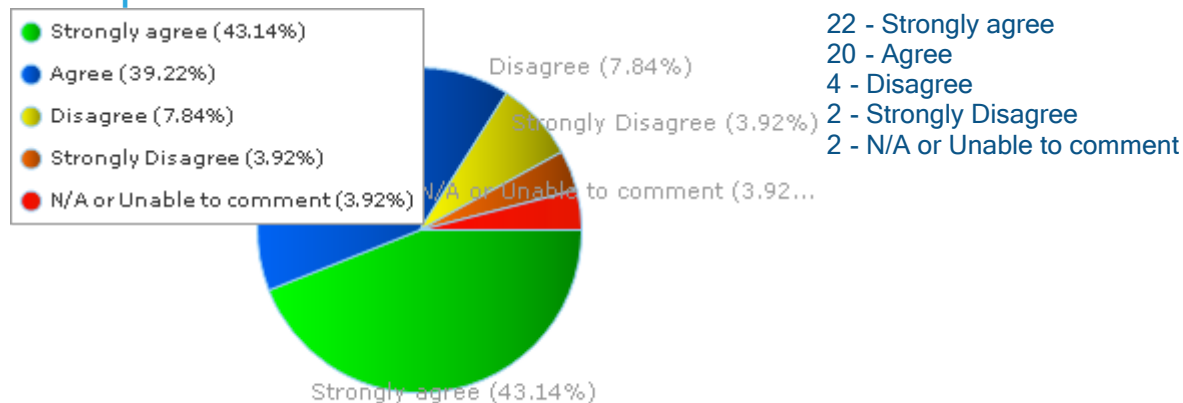

I enjoyed it because I love collaborating with different people.

it was fun getting cards from the other countries

emails

im not great at art so wasn't too fun but I loved the other art stuff

The project has enabled me to learn new skills eg: art skills/ twinspace

I liked this project as I got to do lots of art and I got introduced to a website called twinspace.

Can we use twinspace next term?

Doing this project I learned new skills that were really fun

I learned how to use twinspace which was cool

i learnt how to use twinspace and padlet. i also learnt many origami things.

twinspace and padlet

Email, padlet, twinspace

Padlet

origami

I was able to learn how to use padlet ,twinspace

yes it has because with it I learnt how to draw properly and not to sketch

padlet, twinspace

I like twinspace because you can get in to a chat room and talk with lots of other people

origami, twinspace, art, padlet

it helped me learn how to use twin space

The project has learnt how to use twinspace.

how to use padlet

I feel I have learned some things the main one being how to work twinspace and computers better.

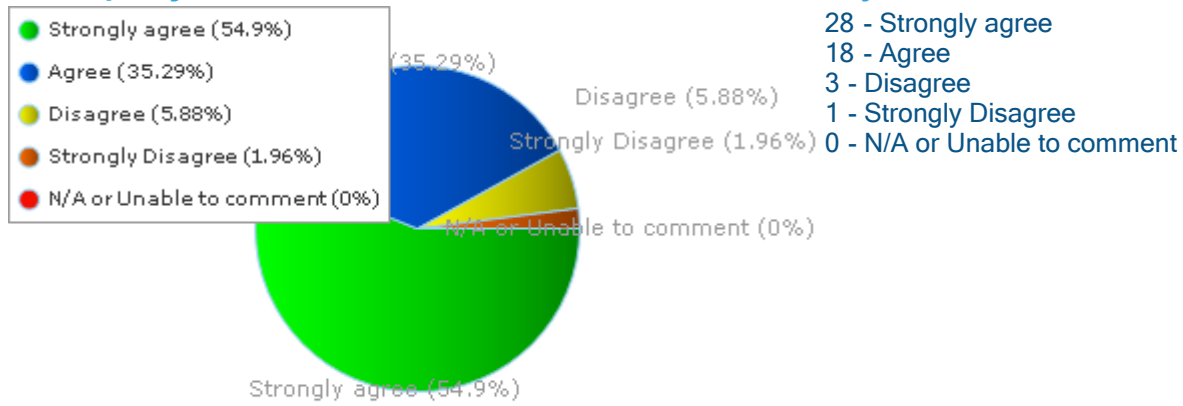

I learnt how to use twinspace

This project helped me to use a computer better and it taught me how to use twin space.

I haven't learnt much

The project involves all the children in my school

it was so fun to see the art from nursery to P7 on the board . Moving was so fun to do with the whole school

All the children in my school was part of the project.

everybody in my class is involved in this project

with our school each class learnt about a different school from a different country it was very fun

Fairtrade event, logo competition

fair trade event, logo competition

I think most of the children in our school were able to contribute to the project.

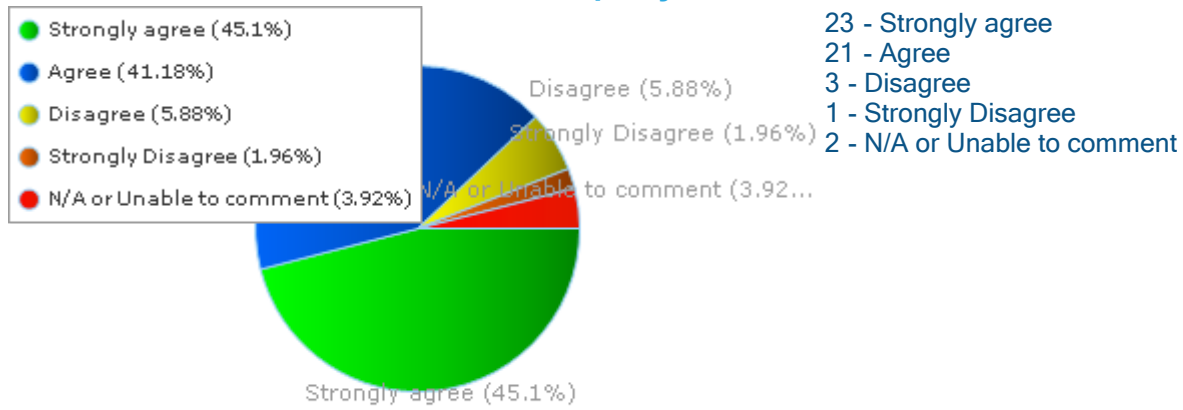

everybody loved to do the songs for the Erasmus team

I am not sure but I am assuming so.

the younger children don't get involved as much as I thought

It only involves p.7

I am enthusiastic about the project

I love going on twinning space

I really like to do lots of the activities

I wanted to always go on twin space to talk to my friend from england

Can the europeens come back again?

I am enthusiastic about the project because I like meeting people from different countries.

I am enthusiastic about the project because it is really fun.

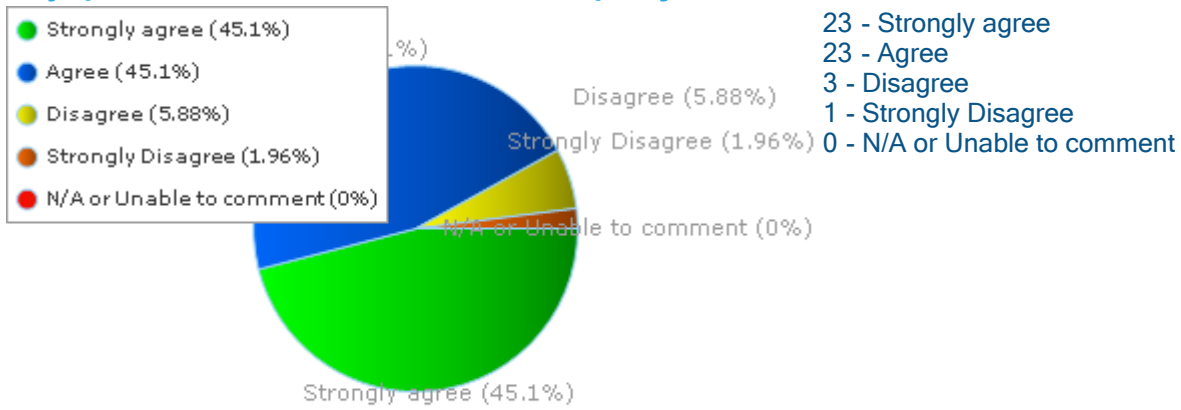

I am kinda enthusiastic about the project.

at first I was excited but as we keep logging on it gets less fun

I am honestly not so enthusiastic about the project some things just didn't stand out to me.

I did enjoy most of the activities that came with the project

My parents know about the project

My parent new about the project straight away and she said it sounded really fun which it was

I always talk to my parents about what we were doing in class about the different countries and took my6 dads phone to go on twin space

newsletters

letters

My parents know about the project .

They only know about through me but even so they probably forgot.

they knew about the project because we had to learn different songs

they might have forgotten

I didn't tell my parents about the project but they might know because of the school app I'm not sure though

she has no idea what it is
