“Dictionary of the herbs”

Melissa

Thyme

Oregano

Parsley

Dill

Rosemary

Basil

Chives

Sage

“Nature does nothing in vain. Therefore, it is imperative for people to act in accordance with their nature and develop their latent talents, in order to be content and complete.” **Aristotle**

The nature gives us a great treasure - the herbs.

Beautiful plants and flowers as well as the weeds bring the different scents, flavour and healings effects to our lives. Running the Project “Healthy Herbs Outlook“ we try to motivate our students to get closer to the nature, to know and identify the herbs.

Carrying out the activities of the Project the students created this short "Dictionary of the herbs". The names of the herbs are arranged according the English alphabet. Therefore first of all you can find the names of the herbs in English and Latin illustrated with the pictures. Below there are also the charts containing the names of the herbs in Romanian, Polish, Lithuanian, Turkish and Greek languages.

We hope that this dictionary will help everyone who would like to get more familiar with the herbs.

A plant

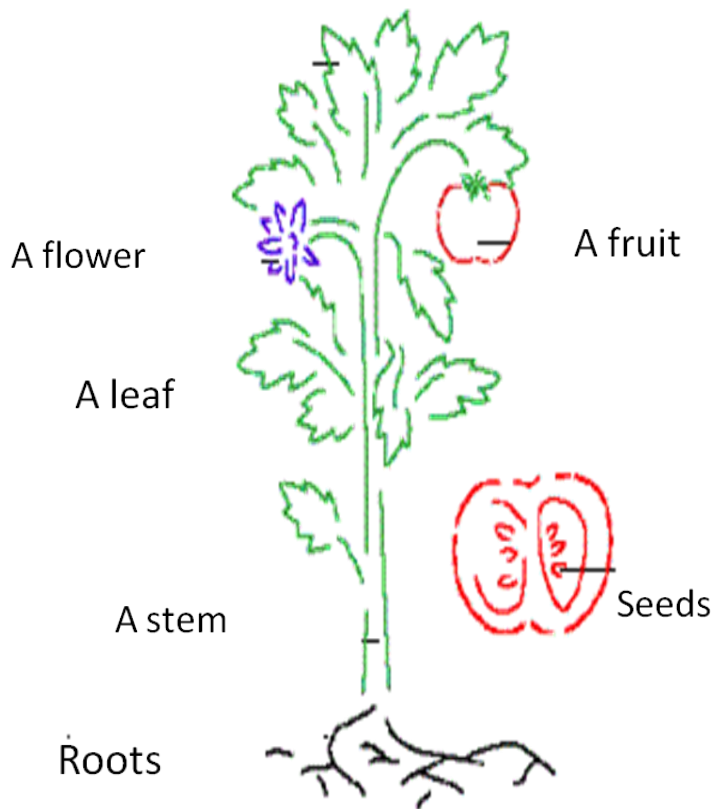

All plants make their own food taking energy from the sunlight.

A plant is a living thing that has roots and grows on land or in water.

Plants cannot move from place to place because most of them are rooted in the soil.

The main parts of a plant

A plant is made up of many different parts.

A herb

A herb is a plant or part of a plant valued for its medical, savory or aromatic qualities.

A plant or part of a plant means that a herb can be a single plant or the bark of a tree, leaves, roots, seeds, fruit, flowers or any other part of any plant.

A

Absinthe

Artemisia absinthium

//Absinthium// Absinthe wormwood// Wormwood

Aloe

Aloe vera

Anise

Pimpinella anisum

The apple tree

Malus domestica

Aspen

Populus tremula

Autumn crocus

Colchicum autumnale

Meadow saffron//Naked lady

English	Latin	Romanian	Turkish	Polish	Greek	Lithuanian
Absinthe wormwood	<i>Artemisia absinthium</i>	Pelinul	Pelin otu	Bylica piolun	Αψιθιά	Pelynas
Aloe	<i>Aloe vera</i>	Aloe	Aloe	Aloes	Αλόη	Alavijas (alijošius)
Anise	<i>Pimpinella anisum</i>	Anason	Anason	Biedrzyniec anyż	Γλυκάνισος	Anyžius (anyžinė ožiažolė)
Apple (apple tree)	<i>Malus domestica</i>	Mărul	Elma ağacı	Jabłko	Μηλιά	Obelis
Aspen	<i>Populus tremula</i>	Plop tremurător	Titrek kavak	Osika	Λεύκη	Drebulė
Autumn crocus	<i>Colchicum autumnale</i>	Brândușa de toamnă	Sonbahar çiğdem	Zimowit jesienny	Κολχικό το φθινοπωρινό	Rudeninis vėlyvis

B

Barberry

Common barberry

Berberis vulgaris

European barberry

Basil

Great basil

Ocimum basilicum

St. -Joseph's- wort

Bearberry

Arctostaphylos uva-ursi

Bilberry

Vaccinium myrtillus

Common bilberry

Blue whortleberry

Birc

Betula

Bird cherry

Prunus padus (Padus avium)

Hackberry//Hagberry//Mayday tree

Bittersweet

Solanum dulcamara

Bitter nightshade

Poison berry

Blackcurrant

Ribes nigrum

Black locust

Robinia pseudacacia

Bog bilberry

Vaccinium uliginosum

Bog blueberry

Northern bilberry

Bogbean//buckbean

Menyanthes trifoliata

Burdock//Greater burdock

Arctium lappa

English	Latin	Romanian	Turkish	Polish	Greek	Lithuanian
Barberry	Berberis vulgaris	Dracilă	Sarıçalı	Berberys	Βερβερίδα	Raugerškis (paprastasis)
Basil	Ocimum basilicum	Busuiocul	Fesleĝen	Bazylija	Βασιλικός	Bazilikas
Bearberry	Arctostaphylos uva-ursi	Strugurii-ursului	Bataklık yaban mersini	Mącznica lekarska	Κουμαριά	Meškauogė (miltinė)
