

*To prevent the problems caused by
Covid 19 from polluting the environment*

Sustainable

Artificial Intelligence Based Sustainable Environmental Cleaning

Abdulkadir Celep

Face Mask Management

Mask; It was produced with the aim of finding solutions to the problems created by Covid 19.

However, unconscious consumption harms the environment.

The danger posed by disposable masks is growing. The masks are unconsciously thrown to the floor.

UV BASLIYOR
Hava Kirli

3 teachers and 1 student together, our project is a necessity of being sensitive to the environment.

Purpose of the project: To ensure the use of recycling machines created for disposable masks by the society.

USED MATERIALS:
