

## Cooking class -Sustainability Concept

In this concept we want to explain our sustainability approach. We put our special focus on.

- Effort to recycle things
- Eliminate pollutants
- Allowing children free rein
- Develop a sustainable culture
- Education to acquire skills

---

---

### Cooking Class

- There are small changes that we can make at home towards sustainable cooking, that will have a wider impact over the long-term.
- Sustainable cooking is all about our food choices and how they affect local sustainability, health and the environment.

- Employees are asked how they feel about the issues

**Is part of the sustainability concept ...**

1. Energy
2. Resources
3. Environment
4. Economy
5. Education
6. Social
7. Public Policy
8. Culture
