

## Description

Mask; It was produced with the aim of finding solutions to the problems created by Covid 19. However, unconscious consumption harms the environment. The danger posed by disposable masks is growing. The masks are unconsciously thrown to the floor. So we as the 'Let's Recycle Your Mask' team decided to produce environmentally friendly reusable masks.

## Our Mission

To continuously increase the value we add to the society and the environment, with the reusable masks we produce efficiently.

## Our Vision:

- Being the largest company in our field and achieving all our goals.
- To be among the largest companies contributing to the protection of the environment.

## Goals:

- The goal of the project is to reduce the environmental harm caused by unconscious use of masks by ensuring the use of recycling machines created for disposable masks by the society.
- Opening up to large markets.
- Growing our current staff.
- Minimizing environmental pollution.
- Making the name of the company known to the World.
