# PRODUCT AND CHARACTERISTICS

-This telephon has the ability to **recharge autonomously**.

How? thanks to a **charge percentage detector** that when it detects a percentage **below 20%** active the **special battery**; This battery has been created specifically not to be damaged and be always ready to use

-When the level is under 20%...**more** we **use** the phone, **more** it will **charge**.

# WHY BUYING IT

- You don't have to be **afraid** to **use** the **phone** if it is **going to die....** even better. With Always-on you will be quite and feel better. At **any time** and situation you **can count on** your **Always-on** phone. We especially thought to guys when we created our product.

- During this pandemic they **use** the phone a **lot**, both for video calls, both for video lessons and the battery is fundamental

- Our company is private company.
- Our headquarters is located in caronno but we have dealers in many regions of Italy like: Lombardy, Piedmont, Veneto, Lazio ,Emilia Romagna and Friuli.

It's a new idea, but it's having a lot of success. For this reason if the sales trend continues to grow, we could also lower the price from 900€ to 800€

A large, irregular blue ink splatter graphic is centered on a white background. The splatter has a textured, watercolor-like appearance with various shades of blue and some white highlights. The text "Thanks for the attention" is written in a clean, white, sans-serif font, centered within the blue area.

Thanks for the
