

I would like to tell you about my experience in Lithuania. When I think about Lithuania, the first thing that comes to my mind is the lush fields, the quiet and calm life. I've been fascinated by the nature of Lithuania since we first landed by plane. On the first day, we visited the school and the students were presented. The school was definitely bigger than I expected. The students seemed to have put a lot of effort into their school, you could see what the students did on each wall. We played a little game before we went to school and thanks to this game we knew each other a little. In their presentations, they first talked about their region and school then the education system. Then the students made their presentations respectively. The array was Portugal, Turkey, Poland and Bulgaria. The Portuguese team made their presentations successfully and as a result of their presentations they taught us a lot about their literature. Unfortunately, while it was our turn, we had some problems with the internet in the second presentation and made a compulsory Break Time. Fortunately, with the change of the computer, everything is fine and we finished our 3 presentations. Then the Polish and Bulgarian teams completed their presentations successfully. Through presentations, we learned web tools that we had never heard before. And after all the presentations we finished the first day with a party. On the 4th of June, it was in an intensity and beauty that I had not expected. We visited many churches and the National Museum in Vilnius. On June 5, we visited the Parliament Building and the Genocide and Freedom Fight museum in Vilnius and had lunch at Piliakalnis. Finally, we visited Trakai Castle and went back to the hotel. On June 6 we went to Bercionys Hill first and then St. Maria's Church. We went back to school and formed mixed groups in the school. We had a workshop with these groups consisting of color to color. For example, I was in the orange team. The Orange Team consisted of Alexandre, Edvinaz, Hugo, Ieva, Seval and Yulia. After Coffee Break, we had our group presentations and had lunch. In the afternoon we met with the border guards. They showed us their schedule. Weapons, Police Dogs (like one that bites Alexandre) and even a tour with the police car. We went back to school and got our certificates. After dinner we had fun with the disco. And June 7 ... Last day, we went to Paulavo's Republic. Then to Medininkai Castle and Belmontas Park. We came to the Akropolis for shopping. We were a little upset that we had the last hours together. And at about 17.00, it's time to say goodbye to the Turkish team. Too much emotion and tears than I ever expected. I definitely should have taken part in this project, and the moment I said it was a good thing ... This project is very beneficial for your English like any Erasmus project. Especially for people who have difficulty talking or ashamed. Certainly your speaking skills are 100% improved. When you learn new words, it is not easy to forget again. This project certainly brought me new knowledge, cultures and friendships. I'm really happy to be involved in this project. I'm sure I'll never forget this week. Hope to see you again later. Thanks for everything.
