MY REPORT

FOR PARTICIPATING IN PROJECT SMART SCHOOLS FOR SMART AGE

In early 2019, I traveled to Turkey to take part in a project meeting. It was held in Canik in the period 06-12 January. We traveled there by plane from Varna. For the first time I was riding a plane and it was very interesting for me.

We traveled to the airport in Samsun. There they met us and took us to the town of Canik. Then we went to the family where I was housed. They were very good with me. Their house was very nice.

We looked at the school, which was very modern. I met many students and it was fun to communicate with.

Representatives of Portugal have shown us how to work with Powtoon. We showed interesting presentations. We also showed our presentations.

We learned what the Edmodo web platform is about. They showed us how to register and how to work with it. So far I did not know about this platform.

They took us for a walk in Samsun. There we saw many sights and beautiful places.

We also visited the museum of toys, which was very interesting.

I was very pleased with my involvement. When we returned to Bulgaria, I was talking with great excitement to my classmates and my friends.

### FOR PARTICIPATING IN PROJECT SMART SCHOOLS FOR SMART AGE

KORAY RUFİ FROM DOBRICH BULGARIA

I was chosen to participate in this project and am very pleased with this. In January I visited Canik, Turkey as part of my participation. I stayed there for a week. I was placed in a local family. The hosts took good care of me. The food was delicious.

When I was in school, I met many local students and found new friends. The school was very nice and modern equipped. Together with the other students from Bulgaria, we presented our presentations, which were made to POWTOON. Students from other countries also presented interesting presentations.

The pupils from Portugal have presented us in detail what we have to do about this project and have taught us how to work with EDMODO. They performed very well.

During the meeting, we showed interesting places in the city. They also led us to Samsun. There we visited interesting museums.

I was very pleased with this meeting.

## REPORT FOR MY PARTICIPATING IN PROJECT SMART SCHOOLS FOR SMART AGE, MEETING IN SAMSUN TURKEY

MARTIN LAZAROV – DOBRICH, BULGARIA

On January 6, 2019, I went to Samsun, Turkey to participate in the project “Smarts schools for smart ages”. The city was beautiful and modernistic.

The hosts family received me very well. They were good to me and they gave me presents. The parents brought me to museums and showed me different sights in town. The food was delicious.

I met many friends at the school. There the students from all the participating countries presented different presentations. During the presentations I learned about various web tools that help make learning easier and more interesting.

By returning to Bulgaria, I intend to tell my friends about these web tools and about the opportunities they give.

The project is very interesting and I will continue to participate in it.

I attach some pictures of my participant.

## REPORT

### FOR MY PARTICIPATION IN A “SMART SCHOOLS FOR SMART AGE” PROJECT INTERNATIONAL MEETING

BY JENYA STOYANOVA

In January I took part in the first international meeting for “SMART SCHOOLS FOR SMART AGE” project, which took place from January 6th to 12th in Samsun, Turkey.

From the airport the hosts welcomed us very pleasantly. The family behaved very well with me. The food was delicious.

The city is famous for Turkey's national hero Kemal Ataturk. We visited the ship he came with. We have seen various monuments. On the ship we saw his clothes and his diaries. There was even a book in Bulgarian.

We visited various museums in the city. Among them was the Toy Museum.

The school was very modern. It was very well equipped with modern technology. Teachers and students welcomed us very warmly and talked very much with us. We found many new friends.

During the project meetings, we learned many new things. They showed us how to work with POWTOON, EDMODO and other web tools.

I was very pleased with my visit. I am grateful for the chance I am given. I am very grateful to the family for the way they accepted me. I will continue to participate in this project with the greatest pleasure.
