## **2 – Welcome**

The international team partners met for the fifth time at the host school “António Correia de Oliveira”. They were introduced with the support and guidance of Rui Santos, Portuguese Coordinator and Manuel Meira, School Headmaster. This introductions allowed the development of a "Smart School for Smart Age" virtual week.

A virtual visit to the host school facilities was done. In the guided tour the students and the teachers presented their education system, explained the teaching concept, method applied and examples of good practices applied in them, in practice at their own school. In addition, during this contact with the host school, the principles, values and guidelines to foster better educational responses for each student were identified and commented. This virtual visit made one realize how important it is to know the daily school life.

## **3 – Activities**

During the week work activities were carried out. Some of them were planned only for teachers, others for students and without forgetting the various ones in which the teams worked together.

### **3.1 - Students Activities**

The students had the opportunity to share virtually their knowledge, to understand the program contents that was being taught and to intervene in different subjects. During these activities the students altogether were improving English language through intensive listening and speaking, teamwork with cooperation of one and another, problem solving according to the circumstances. These cognitive and social achievements were successfully reached.

The activities scheduled, were carried out so that everyone could participate and get to know our region and country better. Each activity always had a virtual workshop or quiz in which students set out to discover what they were shown. these were designed to be individual work. Only, workshop in maths and board games, students had to carry out in a group activity to created mathematical games. This activity was designed for students to have contact and leave a little of the computer material to which they are subject daily.

The partners students presented each country presents their regional religious festivities.

### **3.2 – Teachers Pedagogical Meetings**

Concerning to teachers pedagogical meetings, were held in order to assess the virtual LTT and streamline all procedures for the completion of the project.

### **3.3 – Social activities**

In this activity, a cooking workshop was programmed so that the students could all be involved in the confection of a Portuguese gastronomic delicacy. Its production was exemplified with the help of the Escola Profissional de Esposende. this workshop was designed so that students could enjoy this moment and taste Portuguese cuisine.

## **Conclusion**

The achievement of our aims in this virtual meeting was performed with a project implementation plan with a concrete definition of objectives in times of pandemic situation.

From the analysis of the activities program of the meeting, organization of the groups and workshops, works presentations, one can conclude that this fifth project LTT activity was fully succeeded.
