

## **EUROSTAR ERASMUS+ PORTO**

The week, in which the partners from the various countries of the Eurostar project came to Portugal, was a week full of emoticons.

I felt stressed but also happy and excited. Despite having to pay attention to everything so that nothing went wrong, the fact that I could meet people from so many countries and get to know new cultures made it worthwhile. Like this, I could learn to balance the fun with the tasks.

In addition, this week allowed me to enjoy what my country (Portugal) has to offer me and get closer to some of my colleagues.

This week helped me grow while resting from school.
