

During this short week, We met many new sincere and cheerful people. They gave us the opportunity to learn about other cultures, their lives. We realized that people don't have to speak one language to love each other's souls. Of course, the most important thing was the expansion of English language skills. We were in various activities, but the most interesting thing was to learn about the culture of Cyprus, to see its famous cultural objects. We must not forget the interesting and necessary lecture on startup companies, which took place on Tuesday. So, I can say that this week was full of amazing people, impressions, experiences. It was a pleasure to visit Cyprus – a beautiful country full of nice and friendly people. For this opportunity, We thank every teacher who gave us the opportunity to participate in this project.

Best wishes from Rimgaile, Agne, Eva and Kamile
