

Saulé

Our week in the sunny city of Porto was amazing. We made friends with foreign students, learnt a lot about different cultures, discovered new places and improved our English language skills. Not only does Eurostar give you a great opportunity to travel and meet new people, but also teaches you to be more independent, work in groups and also to know more about sustainable tourism, which is our future. Forever grateful for all the memories I made during this week.

Gabija

All week was full of adventures – I found new friends, improved my English knowledge, saw a lot of beautiful places. I would suggest everyone to try participating in any kind of Erasmus project at least once in a lifetime, because this is unforgettable experience.
