

## MY PERSONAL DIARY - BY CARLA HOMS

This picture it's one of my favourites of the trip because it represents perfectly what it was. Although being in Cyprus was very positive to discover its culture, gastronomy, to start learning how to make a Start-Up or to improve our English level; from my point of view the best part of the experience was to meet all the people that appear in the picture. It's incredible how in just a few days they became essential people in my life. Without them nothing would have been the same.

Without any doubts,I would repeat this trip again and again.
