

MY EXPERIENCE IN LITHUANIA by Àlex Martín

Our trip to Lithuania was the last mobility in the Eurostar Project, so we did a final presentation about our start-up.

We had the great opportunity to meet new people and also people who we already met in other mobilities. We also went to a lot of traditional places such as churches, lakes, etc. One of the days we went to a museum, where we saw a lot of traditional books, dresses, and cultural objects of Lithuania.

We could also visit Riga, in Latvia. There we could see beautiful buildings and we also did a city tour, with a guide who explained some things abouts Riga's history.

Thanks Erasmus for this opportunity!
