

## MY PERSONAL DIARY - BY MARC SENTIAS

In that photo we can see some students from Porto, Cyprus and Spain in the Estadio do Dragao. I am the one in the middle.

The Erasmus to Porto was amazing. We enjoyed the people and also Portugal. On this trip we had made a lot of relationships with a large amount of people. Aside from the local people, who are incredible, Porto has a lot of beautiful places and his gastronomy is also amazing. In the course of the Erasmus we did a lot of different activities related to sustainable tourism.

I am sure that all the students of Spain would repeat that experience.
