

My fourth mobility in Italy was really nice. Thanks to this experience I had the opportunity to meet new people and deal with different languages and cultures. During our mobility we had the opportunity to visit some of the most characteristic places in Sicily such as (Sant'Angelo muxaro, the Valley of the Temples, Palermo etc ..) knowing customs and traditions of our country and presenting examples of sustainable tourism. I recommend everyone to participate in the Erasmus project as it enriches your person, and allows a direct exchange with other countries and cultures.
