

PERSONAL DIARY BY LAIA RODELLAS

The best moment of the erasmus was on friday, the before last day that we spent with the italian students. First we went to the institute to finish the brochures and promotional videos that we had already started the day before. Later, the Italian students prepared an escape room for us in an old but very beautiful castle. Finally, the best of the day was when we went to a museum-restaurant where we also had a little farewell party. in the photo that you can see, you can see us before dinner.
