I really liked the project in Catalonia! The people in this project were super nice and friendly. The family and my host were very welcoming and kind. I liked the visit to Barcelona the most, because it was very beautiful and had lots of interesting history about it. I think this project was very beneficial for me in all aspects.

The week in Eurostar was my best week in my life. There I met most friendly students I have ever met. In one week they all became my brothers and sisters. Work with them in the group was so easy and funny, because there was amazing atmosphere and I would like to repeat that week so much.

The project in Catalonia, Spain was the first project of that kind for me. I have brought many impressions, and most importantly, this project contributed to the achievement of one of my dreams – to see the city Barcelona. Moreover, we had a lot of time to know more about sustainable tourism and travel around the country and to explore different cultures. The food was delicious, the host family was friendly and caring. Plus all the time, that we spent during the project, was very interesting. I want to take part again and again. I hope this is not my last project.

I feel very happy and lucky to be a part of this project. My visit to Spain, Catalonia was really fun and exciting. I think the best part about it was to get to know more about sustainable tourism, entrepreneurship, new culture and improve my English speaking skills. All of the activities were really interesting. My hosting family was super caring and welcomed me very warmly. All in all, I really enjoyed this week in Catalonia, it was a great experience and I can't wait for other participants to come to Lithuania.
