

My experience with the Erasmus+ programme in Cyprus was incredibly rewarding. I visited beautiful places, ate amazing food, connected with other cultures in a deep and meaningful way that I'll always cherish. The teachers and organizers of the project did a wonderful job and made us all feel at home there, so I'm extremely grateful.

Most importantly, I made friends that I'll take with me throughout life, and connections that will last much longer than simply the duration of the project, and that is the most important part of all of this. THANK YOU ERASMUS!!!!
