

I was very excited to host an Erasmus mobility, and although my hopes were high, it didn't fail to reach them.

Having people of other countries in your "home" is extremely fun! Showing them our architecture, our uses, our cultural baggage and even teaching them some of it is very interesting and, honestly, very rewarding.

All of this, of course, was made possible by Europe and, above all, by the Erasmus project, for that, I say

Thank you, Erasmus -Flavio
