## EUROstar Hosting in Sicily

On the 26<sup>th</sup> April I was super excited (even if it was early and I am not a morning person at all) because I knew I was about to meet up again with some friends that I made during the hosting in Portugal but I was a bit nervous because I was also going to meet new people who I wanted to get along with and spend an amazing week. My fears did not last long though because I instantly clicked with everyone that I didn't know since they all were super friendly and kind

people. Indeed, it was an amazing week in which I got to make my foreigner friends visit my hometown, learn about our beautiful culture and taste our delicious food. Furthermore, during this week, thanks to the Erasmus and the amazing plan organized by my teachers, I learned new information about Sicily, that I wasn't aware of, visited beautiful places where I had never been and had a lot of fun.
