

My experience in Cyprus

In October 16th 2021 I had the amazing opportunity to travel to Cyprus in the context of the project ERASMUS Eurostar. I can say for sure that it was the best week of my life and exceeded, for sure, my expectations.

First, I can say that I met incredible and really different people that I will never forget about. Then I visited amazing things, ate amazing food and learned a lot about Cyprus culture.

I really appreciate ERASMUS for giving me the opportunity of a lifetime to get to know all the unforgettable places and views, and being able to see my self-improvement not only speaking English but being in a completely different country.
