

At the beginning of this week I was very shy to approach the guys who came here in Sicily, but it turned to be one of the most beautiful weeks of my life! This experience has taught me so much and I will remember it forever. It was a very educational and personal growth project, for example I have been able to deal with different cultures and put myself at stake in terms of group work, I developed computer skills, such as the creation of an app, and socially opened up myself by confronting our diversities, but also the things that unite us. At the end of the week I was very sad about their leaving because we bonded a lot and we spent some beautiful days together, but I'm grateful for the opportunity it was given to me. Erasmus allows you to meet great people and make you grow culturally and mentally.
