

## EUROSTAR PROJECT: MY EXPERIENCE IN CYPRUS MOBILITY by Àlex Martín

I remember the Cyprus mobility as one of the best weeks in my life. I was very scared the first day because it was my first time taking a plane, but I relaxed because I was going with my friends. When we arrived to Cyprus, it was night so we just went to an Italian restaurant called Bella Ciao to have dinner.

We met with everybody the second day there, we went to see the Omodos village and it's school too. Omodos is one of the most beautiful villages i've been ever. In there, we were in some rural villages, and I was lucky because I could be in a house with the Italian people. There we did a lot of things, because we had a very big terrace to meet with all. We could go having dinner to some restaurants there and taste their traditional dishes.

After two days there, we turned to Limassol city and there we stayed in a hotel. I remember a restaurant, Bella Ciao, where we all were having dinner. We were hanging out and walking around the beach a lot of days. One day, we went to the poll and also to the beach with the portuguese people. The last day, we did a video for the start-up project and we've seen them into a small room with all the project members. As I said, it was one of the best weeks in my life, and I hope to see them again in a future.
