

Erasmus+

Thanks to the Erasmus+ project, I had the opportunity to travel to Lithuania, more specifically to Kelme. There, not only could I get to know the wonderful landscapes that fill part of the country, but I could also interact with locals, get to know the school and eat local foods.

In addition, I was able to get to know different cultures that were gathered in a single group better and learn to cooperate and interact with people with different mother tongues (who communicate through English).

Despite so many good points, I would have liked to have had the opportunity to visit more areas, especially a more populated one, to have a more realistic view of the whole country.

To conclude, this mobility to Lithuania was a great experience.
