

## MY ERASMUS EXPERIENCE IN LITHUANIA

Erasmus is about learning to love the diversity, exploring the world, and discovering the uniqueness of every single culture. The truth is that I feel that I actually didn't get to know Lithuanian culture and that's one of my biggest regrets.

Even so, I loved this amazing experience that brought me great new friendships, that I intend to keep, and helped me improve my communication skills.

Going to a completely different country with Erasmus was a unique experience, something quite enlightening that led to the opening of new paths.

I keep the memories of distant friends that very soon I would like to see again and for now, the unforgettable moments that I will surely remember for the rest of my life.

I can conclude by saying that it was a trip and an experience that "filled my measurements". It had everything expected: work, joy, fun and adventure!
