

In this photo I'm with Agn  and my parents.

Agn  was my partner, the best partner I could've wished for in this project and feel extremely lucky to have gotten her as my partner, but now she isn't just a partner from the project, she's also a really good friend and a great person overall and I really hope to see her again in the future. Maybe we didn't talk as much as I would've wanted in that week, but the time I have spent talking with her was a really well spent time, and there still is the fact that we had already talked hours and hours on the phone before she came to Catalonia. Plus, there still is a lot of time left for us ahead to meet each other and get to know ourselves better, so I won't worry about it a lot. I really hope she felt the same for me as I did for her.

Everyone from this project in general I consider them now as friends and they probably made one of the best week in my entire life. A truly life-changing week and probably a before and after point in our lives for some of us. Most of us really had a special bond with each other and that bond made it so blissful for me and I bet for the others as well.

I truly believe this experience changed me in to a better person, the person I wanted to be, but thought it would be impossible to be, but the people I've been with during the week made me realize it was indeed possible. I really hope everyone had such a positive change like me. I miss every one of them and I'm really keen on seeing them again in the future. Thanks for everyone, and especially Agn , for such an amazing experience.
