

This trip to Barcelona (Erasmus+ EUROSTAR) was very enriching for me because I learned very much about sustainable development. On a personal level I am a reserved person and meeting new people and with another culture has reduced my shyness. It was also a great challenge at the English level because I have some difficulties, but it went well. The family that welcomed me is very friendly and treated me like a family member and I made great friends whom I will always take in my heart.
