

I have chosen two photos, one represents the school work and you can see my group. The other represents the free time with my partner, Pulius.

I decided to choose two photos because I want to express the everyday life of an Erasmus project, showing one photo of the free time in the afternoon when one day, we went running with my dog. Also I want to show the school time, represented with this photo in L'Esquerda, where we worked in groups and our partners learned a lot of about this important place in our town.

In my opinion, this two photos are the best to represent this amazing experience, the ERASMUS PROJECT "EUROSTAR"
