

My experience on Erasmus was absolutely fantastic! I have never experienced something like this in my life so I was very excited. I learned new things, I tried different foods and I made new friends which was my favourite part. I was surprised because there were a lot of different cultures mixed in the same place and we all got along very well. My knowledge was enriched and I learned more about sustainable tourism while having fun. I'm looking to have another amazing experience like the one we had in Catalonia. It was one of my favourite trips of my life.
