A picturesque trip through Desfiladero de los Gaitanes is a low difficulty hike, with a trail along steep limestone rocks that offers unique views. The King's Path was created for the needs of hydroelectric power plant workers. In 1901 a one metre wide path was created, suspended at a height of about 100 meters above the river. The name comes from the fact that in 1921 King Alfonso XII travelled this route during the opening ceremony of the Conde del Gaudalhorce dam.
