Erasmus Days 2020

On 16th October 2020, our school participated in the celebration of Erasmus Days. The main activity of the day consisted of a simultaneous game: it was an online questionnaire about curiosities concerning our partners in the Erasmus+ project “Heritage for development”.

This activity was carried out at the same time in all the groups in our school, involving a total number of more than 150 virtual players.

Click [here](#) to watch a video about the activity.

There is also [a post](#) about that day on our school's blog.

Apart from the already mentioned online game, some of our students elaborated a video about our school's itinerary within Erasmus programmes. Finally, [a padlet](#) was shared among our educational community in order to put together some feelings and ideas about the meaning of being part of an Erasmus project.
