

Instructions:

1. Divide the class into groups of five to seven students in order to carry out a debate on energy sources.
2. Read the texts given and make up statements for and against the usage of each source of energy.
3. Choose the debate Chairperson. Divide the rest of the group into two teams and decide who is going to debate for and who is against a statement.
4. Act out a 10-minute debate. You have ten minutes for preparation.
