

# *My first year at Erasmus +*

Ere my first day at the Erasmus + project, I was a quiet and shy person when it comes to meet new people. So let me explain how I got to know Erasmus +, it was a normal Friday at school and I had English lessons my English was good because I grew up bilingual at home.

My English teacher Mrs. Michael asked me if I would take part in the project because of my good English skills. I was curious about it so I said I would do it. When the time reached I was very nervous. Because I didn't know what to do at first when I entered the project. The teachers told me that we were going to present Agriculture from the Lower Rhine. My first exercise was to present the city we live in with a video. Some months later some other student came and also helped in the group. Then we got the information that we would be able to travel to different countries like Italy, Spain and Slovakia.

My first trip was to Slovakia, so I was pretty nervous and excited at the same time.

Let me show you some pics so we can say it is a blog:

I really like Erasmus + because you learn many things about the garden of your homeland and all around Europe. And you can get friendships that hold long.
