

I.I.S. MONTALE GENOVA

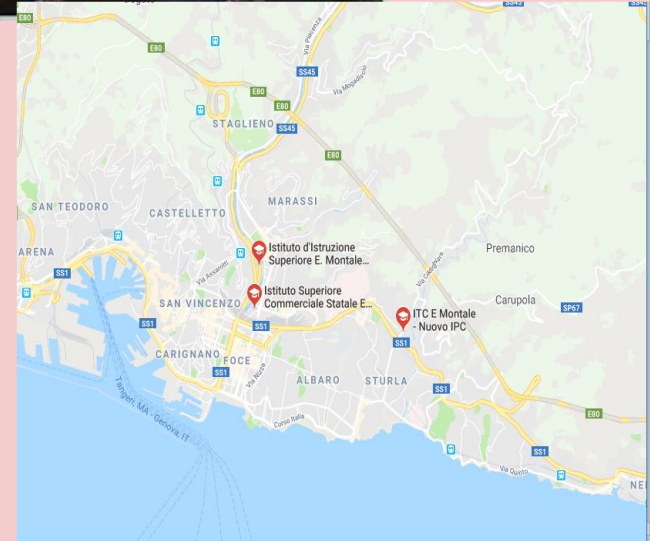

This is our school

WHERE IS IT?

Our school is not in the centre of the city, it is in **Borgoratti**, a neighborhood in the **east side** of **Genoa**.

But it also has **two other structures** that are in the center of our city.

It's a very **nice school** that offers a **lot of work opportunities** for students.

WHAT IS IT LIKE?

It has 5 floors. The ground floor is underground and we have the aula magna, the first floor is still underground and we have the gym and the computer rooms. The second floor has an entry hall, the secretary, the administration offices and the principal courtroom. The third one has another entry and there are a lot of classes. The fourth and the fifth one only have classes.

STREAMS

There are three different streams. The **vocational stream** (tourism and accountancy) and the **technical** ones (accountancy and IT), and our stream, the **linguistic** one. There are five **different languages**. **English** is mandatory but we can choose between **Spanish, German, Russian and French**. In our classes we all do English, Spanish and German or English, French and German.

OUR SCHOOL FROM OUTSIDE
