# 7 DIGITAL ETIQUETTE TIPS TO TEACH YOUR KIDS

1

## Think Before You Type

Just like in real-life, it's always good to take a second and consider what you're saying.

## Keep Personal Info Private

Say it as many times as you need, and then say it some more.

2

3

## Be Kind

Don't say anything you wouldn't say to a person's face.

## Consider Your Audience in Group Chats

Avoid inside jokes with one party in the chat, and don't post anything that will offend any member.

4

5

## Respect Other's Wishes

If a friend doesn't want a photo or video of them shared, don't show it to anyone.

## Talk Only to People You Know

They can branch out when they get older, but in the beginning, it's best to limit their circle to those they know IRL.

6

7

## Don't Ghost Friends

When it's time to get offline, let whomever you're talking to know you're leaving.
