THE PROJECT

The final product of our project is the realization of either a presentation, a short video (max. two minutes) or a brochure on an innovative proposal for a tourist packet for an online travel agency. All this is aimed at the promotion of the historical, architectural, environmental and sporting aspects of the places visited during the study trip in Orte.

The students are divided into eight groups and are given some tasks to be performed, whose assignment is drawn on the first day.

They include the creation of tourist packets based on wellness, food festivals, traditions, music, art, history and sport for:

- ✓ people over fifty years of age
- ✓ young people
- ✓ families with children
- ✓ school tourism

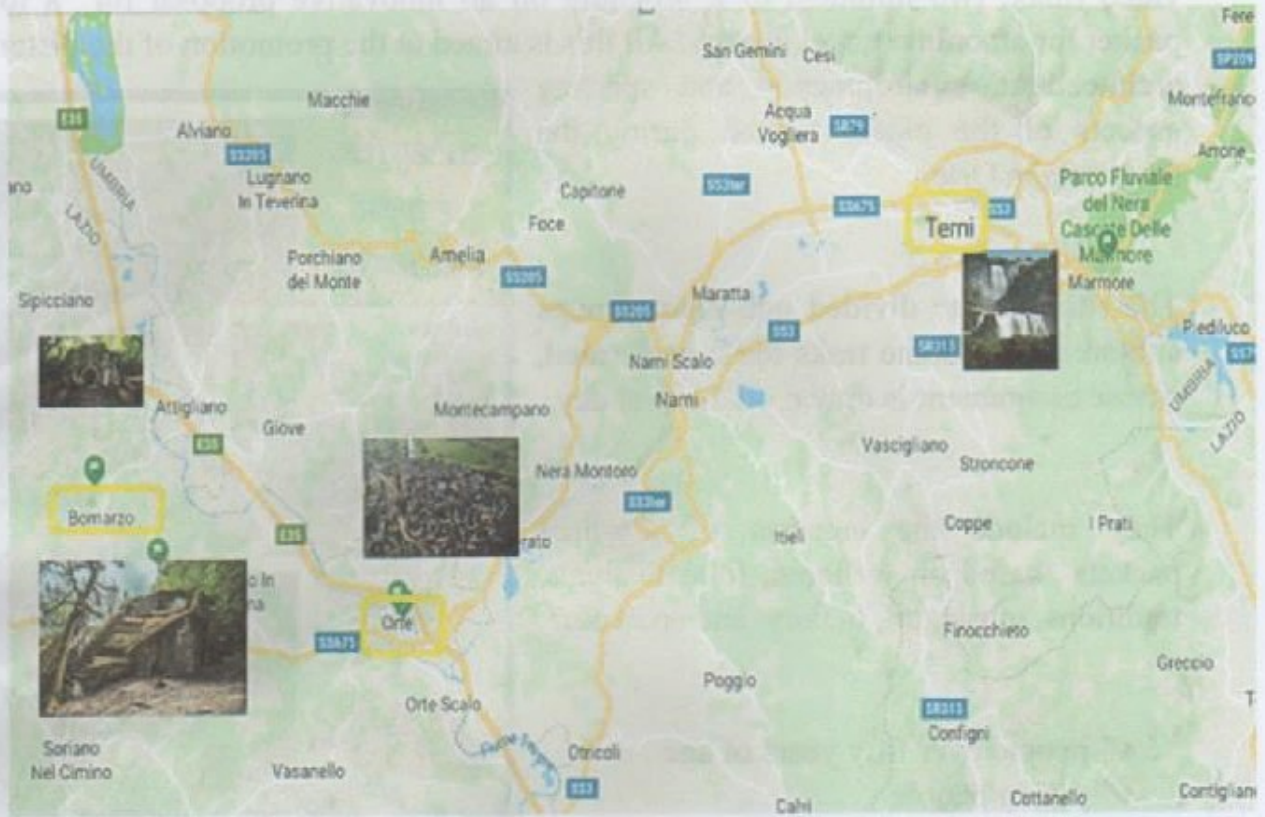

In this way the students have the chance to develop some entrepreneurial skills connected with the realization of the innovative and creative ideas above mentioned.

The students can make use of tools like : PC, different types of apps, Internet.

The works produced will be presented to the families at the farewell party and will then uploaded on the website of the Gew project.
