

EVALUATION

Hosting

Italy: the students were very fine in the families. The parents are taking good care of the children. The atmosphere and the food was all good. After a few smaller problems the students adapted.

Greece: students had a very good time at the families. Sometimes the food was too much. After school they had a good time together. They visited the city centre with the host families. The bicycle day was the best.

The Netherlands: hosting was very good. The students had to get used to the different rhythm and were sometimes very tired. The program was nice. We would like more time to work on the project.

Spain: the families are very happy with the students. They were polite and nice.

Activities

Italy: breaking the ice activity was very good.

Greece: the flashmob activity was very nice.

The Netherlands: the first activity was very good. The price for the activities was good.

Spain: they would like to do more activities, but the tempo was too slow. Also the attention from the students wasn't always good.

Ideas

- One day activities, one day work at school.
- The visit in the Palace could be different. First a smaller tour, then a questionnaire.
- The group has to follow the leaders. Teachers guard their own students and motivate them to walk in a good tempo.
- We need to ask the students about other activities.

- The group is big. We make smaller groups for tours.
- The students make introduction movies from the teachers.

Personal evaluation

Rick – everybody is satisfied with him.

Heself thinks he needed to have more interaction with other students.

Ymie - very helpfull, a lot of ideas, but somethimes goes to quickly.

Sheself thinks that she can be to powerfull in a group.

Antonio – has a lot of ideas, wants to do a lot, he's thinking all the time. He always wants to improve. He's sometimes too polite.

Marie-José - balances the Spanish group, she controles a lot of things.

Beatriz – very positive, polite, too modest, a lot of good ideas, creative, she wants to improve her English.

Litsa – does a lot of things, very positive, should delegate more, is a fighter, responds quictly.
