Growing up in the 21st Century Europe

World Water Day 22nd March 2019

NEUMANN JÁNOS EGYETEM

PETŐFI SÁNDOR GYAKORLÓ ÁLTALÁNOS ISKOLA ÉS ÓVODA

We celebrated World Water Day on 22nd March by organizing a range of educational activities. Our children took a trip to the water system site where they could see the process how the water gets into the tap. The overall aim was to help our children become more aware of the problems that some people face around the world, and what we may do as individuals to conserve water. Adults in the program highlighted that how lucky children in our town are to have unlimited access to clean water anytime, anywhere.

Water is treasure, we must save it!
