Berries in Sweden

Here you have some facts about different berries you can find in Sweden.

Cloudberry

It`s a berry that looks like a raspberry but it`s yellow instead of red. They are growing on mires and have small, hard seeds and the taste is sweet.

Wild strawberry

Looks like a very small strawberry. It is a bit rare but grows on the side of the road, forest and meadows. The taste is very sweet.

Lingonberry

A red berry that`s very sour, mature between August and September. We use it to make lingonberry jam.

We eat it to palt, porridge, meatballs, etc.

Blueberry

One of the healthiest berries for humans and animals, we use it for a lot of things like pie, jam and blueberry soup.

Raspberry

Mature in June and grows wild throughout Sweden. Often used to juice and jam.

Bramble

Grows mainly in north Norrland coast land. Maybe one of the tastiest berries in Europe. Norrbottens flower landscape.
