

THE WATER EGWE DECALOGUE

GOOD PRACTICES FROM CIRCULAR SCHOOLS

1

Collect rainwater and use it to water the plants. Promote Living Roofs in our cities to use rain water at home

2

Reuse leftover food (it reduces water footprint)

3

Prefer the shower to the bathroom Wash quickly yourself in the shower

4

Install the flow regulators on the taps Close taps while soaping

5

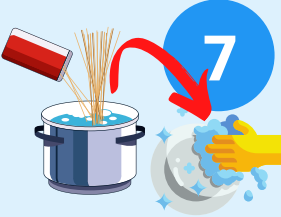

Wear second-hand clothes (It reduces water footprint)

6

Use a fully loaded washing machine and dishwasher Use the "ECO" program to save water and energy

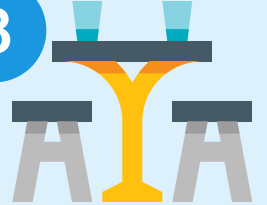

7

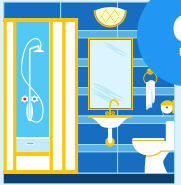

Use the water cooking pasta to wash the dishes

8

Collect the water left at the table and use it to water the plants

9

Use a smaller bathroom

10

Check periodically for right flowing pipes and repair leaks immediately

11

DON'T POLLUTE WATER:

Choose vacations not polluting Water (no cruises)

Do not abandon plastics and other polluting products

Do not put on sunscreen before swimming in the sea

Stop burying waste so that pollution does not reach groundwater.

...Preserve Water... All together it's possible to save our Planet...
