## RAMNICU VALCEA

- ***„Colegiul Energetic: a prestigious school, a chance for quality education and training for all young people, a school for the future.”***

# Over 1000 students study at Colegiul Energetic.

- Colegiul Energetic is the largest institution of technical education, training specialists from Valcea county, in electro-energetic field. Former students of this school are employed at important companies from our country.
- The main specializations fields for students are:
  - electronic technician
  - automation technician
  - mechatronics technician
  - mechanical technician
  - ecological and environmental protection
  - sports instructor –handball (girls)

Our students are interested in studying foreign languages, science, economics, mathematics and computer science.

Many students have passed the exams Cambridge and ECDL and they are trying constantly to improve their skills in areas of interest, for higher employment opportunities.

Currently, **Colegiul Energetic** exhibits openness towards education, which promotes European values and cultures, involving students and teachers in educational partnership projects on various topics of interest such as computer science, environmental protection, entrepreneurship, green energy sources, science, technology, engineering, robotics, human rights .
