December 20<sup>th</sup>2016  
The personal director  
Chemistry industry  
Argon street  
London W85BP

Dear sir/madam,  
I read your advertisement in the local paper on 3<sup>th</sup> December, I  
feel I am apply for the post of nurse.

As you can see from the enclosed CV, I have got a heath  
biotechnology degree to “Carlo e Nello Rosselli” high school.

I have been employed as veterinary clinic. They gave me a lot of  
training in anatomy, chemistry and microbiology and in the  
relationship with animals.

I am interested in this post because I am looking for a job which  
offers better carrier prospects and an opportunity to use my  
languages, skills and experiences.

People say that I had responsibility and deal with people.

I hope my application will be considered favorably and I look  
forward to being invited to an interview.

Yours faithfully,

.....
