Dear Sir/Madam,

In reply to your advertisement on the internet of 4th December, I would like to apply for the position of technician.

As you can see from my CV, I am attending the final year of secondary school at “Carlo & Nello Rosselli”, a technical institute in Aprilia.

During this last few years, I have already worked as a trainee for several companies and I acquired good experience in repairing electronic devices.

I am a hardworking and efficient person and I like working in team. I feel I am the right person for this job, as i gained a certain flexibility and multitask skills while working for different companies.

I am particularly interested in this position because it gives me the chance to develop my problem solving skills.

I hope my application will be considered favourably and I look forward to being invited to an interview.

Yours faithfully,
.....
