THIS WORD DESCRIBES ME BEST:

curious

My name is Marlen and I'm fifteen years old. I live together with my parents and my older sister in a house in Bremen. In my free time I always try to keep myself busy and to step out of my comfort zone. I love doing sports, especially Krav Maga and I want to take piano lessons after summer holidays. I also love learning new things and being a part of projects for education or social projects. After school I'd maybe like to study economics or law and want to do an exchange year. It has always ^{been} a dream of mine to travel to France and I'm really excited to meet new people and gain new experiences in Angers. 😊
