

Hello,

my name is Maciej Kur and I'm 16 years old. I live in Toruń, Poland and currently I'm a student of IV LO in Toruń. I live with my parents and my younger brother Michał who is 13 years old.

I've got lots of interests. I'm into many sports but basketball is my favourite one. Besides sports I am keen on travels and movies. In school my favourite subjects are: English, German, PE, Maths and IT. I like to learn foreign languages and I know very basics of German and Spanish, I speak English quite fluently.

In my freetime I often go outside to meet with friends, ride a bike or do some sports. When I stay at home I read books, watch some Netflix and rarely play computer games. As I already mentioned I love to travel and I've already been to 20 countries.
