

## TRAVEL ABOUT ANGERS

With the ERASMUS+ program we could receive our exchange partner. I am going to tell you it.

### MONDAY

To begin, we took a typical french breakfast. Then, we had to present our high school and to attend two conferences from ALDEV and MTCE. In the afternoon, we did "round tables" with business leaders. Later on, during our free time we played some games; for example "tomatoes ketchup" and "lucky luck". At 7pm, we ate "fouées" and we did a party.

### TUESDAY

We visited different firms, for example MIN and GIFFARD. We had a picnic next to the ice skating and we showed them a beautiful view of Angers as we were on the top of the big new theatre. Around 3am, we had to do a rallye in the city. After that, we went to the city hall. Then, we took the bus and my exchange partner met one of my friends.

### WEDNESDAY

We attend a mass in our chapel. At 10:15am we did a brainstorming to present to the other students how to set a business up in our own country and then to compare with Germany and Poland. After lunch, we did badminton in pair. During the spare time we were in a bar and then we went home.

### THURSDAY

We had a meeting at 8:15am to go in the "PUY DU FOU" where we can see historical shows. For example : "Les vikings", "Le secret de la Lance" and "Le secret de la Pérose".

### FRIDAY

To finish, we did workshops to product a recording and a video to recap what we did this week. Then we ate in our high school. In the afternoon, we did an assessment and we had a word of the Direction. Furthermore, we played in the Laser game and we did a party.
